Approval is requested for the new home construction, submitted with this application. I understand that the 30-day review period does not commence until all documentation to complete my application is received by the Architectural Review Committee (ARC) and the application fee is paid. I understand that the ARC will review the construction and site plans attached to this application as to the quality of workmanship, design and harmony of external design with existing structures, and compliance with the ARC guidelines.

I acknowledge that work will not commence on this new home construction until notification of approval by the ARC has been received. This approval is good for one year from date of approval.
